Subject
Work in the Tripstraat extended until early February

Dear resident,

On Thursday 12 October Heijmans started work for WarmtelinQ in your neighbourhood. We're laying a heat pipeline underground. The work was supposed to be finished by the end of December. Unfortunately, the work has been extended until early February 2024. This letter tells you more about this, and what it means for you.

The work is running late. We'll be finished in the Tripstraat in February 2024.
Unfortunately, due to unforeseen circumstances, we'll be finished later than planned. This is due to unanticipated cables and pipes we've found in the ground. Our work will be finished by the end of January. We'll then clear the work site and remove the traffic measures. The street will be open again at the beginning of February.

The work area remains the same. Parking is still not possible anywhere on the Tripstraat.

You can park in the Zamenhofstraat, Esperantostraat, Esperantoplein or anywhere else in the neighbourhood.
The Tripstraat is closed to cars next to the entrance to Het Zamen.

The existing diversions also continue to apply for cyclists and pedestrians.
The pavements will remain open. During the Christmas holiday the crossing over the tramline (near car park De Verademing) will be open for pedestrians. For cyclists there will be a diversion via the Esperantostraat.

We won't be working during the Christmas holidays (from 25 December 2023 to 5 January 2024.)
The road will remain closed. The work area will be cordoned off with extra high fences. We'll carry out checks to make sure everything is safe during the period when no work is being done.
