Date
1 December 2023

This matter is being dealt with by
Melissa Morgenland

Subject
Middachtenweg (service road) and entrance to Guntersteinweg temporarily closed

Dear resident,

Heijmans is laying a heat pipeline underground: WarmtelinQ. This is made up of two pipes side by side: a supply pipe and a return pipe. That's why we've been working in your area for some time now. For example we previously welded the loose parts of the pipes together. Soon we'll be bringing the pipes underground, with two drilling operations. We'll be doing this on Wednesday 13 and Wednesday 20 December. This letter tells you about the upcoming work, and what it means for you.

We'll lay the first heat pipe underground on the Middachtenweg on Wednesday 13 December.
Two pipes of almost 400 metres long and 70 centimetres thick are now in place on the Middachtenweg, from the Erasmusplein to the Guntersteinweg. We'll lay the pipes underground by means of an underground borehole. We'll do this on two stages in December:

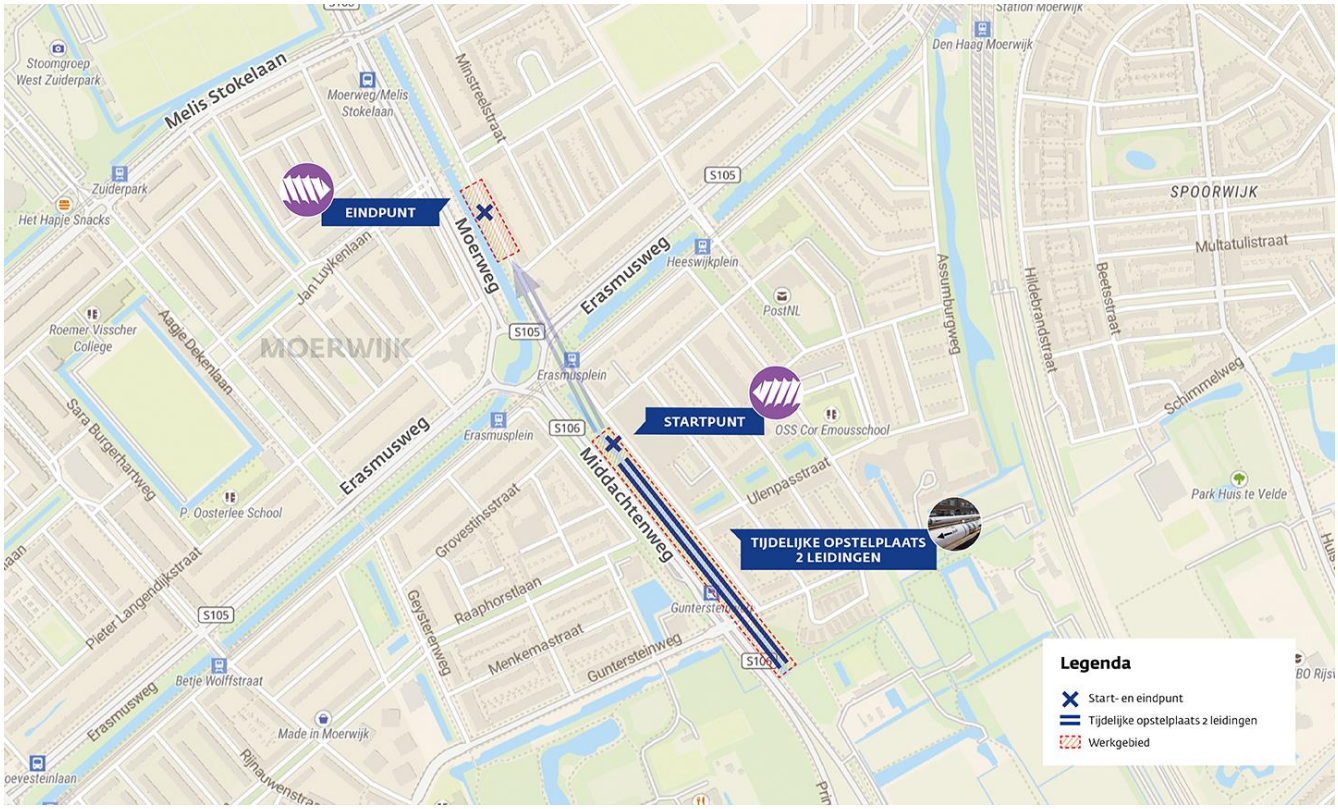

- 12-13 December 2023
- 19-20 December 2023

Bringing the pipes underground will take two days:

1. **On the first day**
   Tuesday 12 December:
   - All the materials will be placed on site and in the right place.
   - All 17 cranes will be made ready from 7am. From then on, cars will be diverted via the Heeswijkplein. Pedestrians and cyclists can still enter or leave the area until 12pm.
   - In the afternoon the pipeline will be made ready in the right place. It will be pulled back along the Guntersteinweg and across the cycle path of the Pr. Beatrixlaan (Rijswijk). From then on pedestrians and cyclists will be diverted via the Erasmusplein.
2. **On the second day**
   Wednesday 13 December:
   - Closure of the Middachtenweg service road and the intersection with the Guntersteinweg.
   - Lifting the pipe with the cranes.
   - Laying the pipeline underground: we'll pull the pipeline under the Erasmusplein, through a drilled tunnel. We'll dig this tunnel in advance.
   - Removal of the temporary barriers and reopening of the Guntersteinweg/Middachtenweg intersection to traffic.

The planning for the second pipeline is exactly the same. Once again, laying it underground will take two days:

- Tuesday 19 December (first day, preparation, from 7am);
- Wednesday 20 December (second day, traffic measures and laying ready pipe ready, pulling the pipeline underground, from 7am);

Work area]

You live close to our work, so you'll probably to notice some of it. You can expect the following:

Fumes and dust
From windblown dust and exhaust fumes.

Noise
From excavators or pumps.

Different route
The Middachtenweg will be closed.

Road closure
Some streets will temporarily become dead-ends.

Vibrations
Our lorries cause vibrations.

On 12, 13, 19 and 20 December we'll be starting work at 7am.
On these days we'll be working until 7pm. If in the end it turns out that we need longer for the work we'll announce this shortly in advance on the BouwApp.

Please note: The Guntersteinweg entrance will be closed on 12-13 and 19-20 December.
Going by car? Then you can access the area via the Heeswijkplein. The entire Middachtenweg (service road) and the Guntersteinweg entrance will be closed.

During the road closure you cannot park on the Middachtenweg.
You can park in the nearby side streets (Wildenborghstraat, Ulenpasstraat or Guntersteinweg) or anywhere else in the neighbourhood. Additional parking spaces have also been created on the Guntersteinweg, next to the entrance to the Kruisvaarderspark.

Homes and businesses will remain accessible.
Pavements and cycle paths will remain clear at all times during the works. Homes and businesses will remain accessible, also for emergency services.

Taking your bike or going on foot? The bicycle lanes and pavements will remain open. You can reach the neighbourhood via the Erasmusplein. The Guntersteinweg bus stop will remain accessible, but with a diversion. Please plan on extra travel time.

Temporary additional road closure: entire Middachtenweg (service road) and Guntersteinweg neighbourhood entrance, on 12-13 December and 19-20 December.

You're welcome to come and watch the work on Wednesday 13 December.
Bringing the first pipeline underground is an extraordinary sight, as the pipeline is lifted by 17 cranes. We can also imagine that you have questions, concerns or tips about the work: we'd be happy to hear and answer them.

You're welcome to drop by on Wednesday 13 December between 9am and 11am. We'll then have an information tent on the on the Erasmeplein side. You can come along at a time that suits you.

For more information, go to warmteling.nl/denhaag.
Do you have any questions, concerns or tips for us? Then go to www.warmteling.nl/denhaag. You can also call or text us on 06 3948 9911. Our email address is info@warmteling.nl.

Follow the ‘WarmtelinQ The Hague’ project on the BouwApp.
We’d like to keep you informed via the BouwApp. You can download the app from the Play Store (Android) or App Store (Apple), or scan the QR code.

Best regards,

Rinaldo de Lange
